### **About National Pizza Month**

October is National Pizza Month. Pizzerias across the U.S. will celebrate America's favorite food with special events and promotions. National Pizza Month was created in 1984 by Pizza Today, the pizzeria industry's foremost authority on restaurant management and culinary development. In 1987, the United States Congress officially designated October National Pizza Month. Today, there are more than 70,000 pizzerias, representing the \$37 billion industry.
